SUSTAINABILITY AND BUSINESS MINOR

The Sustainability and Business minor is an interdisciplinary minor shared between the Environmental & Sustainability Studies Program and the Business Department. This minor provides a holistic understanding of the intersection between business practices and environmental and ethical responsibility. Courses cover scientific foundations, cultural dimensions, and ethical decision-making. Students gain insights into regulatory frameworks and learn sustainable practices in logistics and global supply chains. The program equips graduates with practical skills and a deep understanding of the ethical considerations necessary for navigating the global business environment responsibly.
