

INTERNATIONAL AFFAIRS MINOR

Minor Requirements

The interdisciplinary minor in international affairs will provide students with the knowledge and analytical tools needed to interpret and navigate the global landscape of interconnected countries. Students will understand the various ways in which actors intersect in the international arena, become familiar with the theories and issues important in the field of international relations, and develop competency in applying theories and analytical tools to understand specific international/global issues.

The requirements for a **minor in international affairs** are 19-20 credits:
