

POST-BACCALAUREATE PREMEDICAL PROGRAM

This intensive one-year program is designed for highly motivated individuals with excellent academic records, who have earned a bachelor's degree from a regionally accredited four-year institution, but lack most or all of the prerequisite science courses needed for admission to medical school. The nine courses (36 credits) required for the Post-baccalaureate Premedical Program allows students to complete in 12 months the necessary science foundation to achieve strong MCAT scores and fulfill the course requirements for medical school admission. The Health Professions Advisory Committee works with post bacc students throughout the duration of the program and subsequent medical school application process.

Program Requirements

Prerequisite Courses

Code	Title	Hours
	Precalculus ¹	

Required Courses

Course	Title	Hours
First Year		
Summer		
CHEM 127	General Chemistry I	4
CHEM 128	General Chemistry II	4
Hours		8
Fall		
PHYS 111	General College Physics I	4
BIOL 121	Cell Biology	4
CHEM 341	Organic Chemistry I	4
Hours		12
Spring		
PHYS 112	General College Physics II	4
CHEM 342	Organic Chemistry II	4
BIOL 122	Evolution and Diversity	4
Hours		12
Second Year		
Summer		
CHEM 373	Biochemistry I	4
Hours		4
Total Hours		36

Recommended Courses

Code	Title	Hours
	Calculus ²	
	Social science course ³	

¹ Precalculus is a prerequisite course for the program and should be taken prior to enrollment.

² It is recommended that students take Calculus prior to applying for medical school. This course could be completed following the Post-baccalaureate Premedical Program. In exceptional circumstances, or as a substitute course for students who have already completed one or more of the program requirements, it could be taken during the program.

³ It is highly recommended that students take a social science course if they have not had one in more than five years.
